

Jeri Agee

I began my professional career as an educator with Milwaukee Public Schools where I taught for over 30 years. I attended and graduated from Alverno College where I earned a BA in elementary education and early childhood. I spent a great deal of my teaching experience in some of the most impoverished areas of the city of Milwaukee but found it to be the most rewarding experience of my career as an educator. I pursued and earned a Master's Degree in Curriculum and Instruction and Instructional Leadership. I have held positions as a curriculum coordinator at the school level, served as a P5 district team member, and as an assistant principal and principal.

As a young single mother, I had to raise three children under some challenging circumstances, financially and emotionally. Fortunately, I had the support of the women in my circle who encouraged and pushed me to pursue my career goals. Now I am the proud grandmother of four wonderful grandchildren. Also in my spare time, I enjoy spending time with my family, traveling, gardening and indulging in DIY projects.

When I heard about Home of Hope Charter School, I felt inspired by the mission to provide support, encouragement and stability to a vulnerable group of young adults in our community. I look forward to using my professional background in helping this organization grow.
